

Capability statement

Federal grant support for public housing authorities

ROA Consulting Services supports public housing authorities across the United States and affordable-housing partners with opportunity research, application writing, budgets, compliance review, and submission support.

Grant services

Opportunity review. Review the funding notice, applicant requirements, rating factors, and documents needed to apply.

Application writing. Develop the narrative around the notice and organize the local evidence and program information.

Budgets and attachments. Prepare supporting materials and check consistency across costs, activities, timelines, and narrative.

Review and submission support. Check requirements and flag missing items. The applicant agency reviews and approves the final application.

Program areas

Family Self-Sufficiency (FSS); Resident Opportunity and Self-Sufficiency (ROSS); Jobs Plus; Lead Hazard Reduction; Older Adults Home Modification; Healthy Homes Production.

Applicant eligibility and application periods depend on the program and funding notice. This list is not a statement that funding is currently open or that every housing authority is eligible.

Ways to work with ROA

Support for one application, an annual grants partnership, or a defined task such as writing, budgeting, or review. Pricing is customized after a needs consultation.
